

Valeria Korobkova

UX writer

Korobkova Valeria Eduardovna
Moscow, Russia. Open to remote. 22.

Portfolio: https://vvallll.github.io/vkorobkova-ux-writer/
Email: valery.k0r04@gmail.com
Telegram: vva_lll
GitHub: https://github.com/vvallll

Philologist (HSE University, 2026).

Write and edit interface text in Russian and English. In two apps, wrote and rewrote texts, translated the interface and maintained bilingual glossaries. Able to edit AI-generated text.

Design screens in Figma and build working apps, so write for a real scenario and understand how text works inside an interface.

Written English: C1.

Projects & Experience

Portfolio / https://vvallll.github.io/vkorobkova-ux-writer/

Keepsake / iOS app for organizing parties

Aug 2026 – present

Designed the app in Figma (design system, core screens); building it with AI. As a UX writer, write all interface text in Russian and English: empty states, onboarding, error messages, invitations and replies to them. Maintain a glossary and tone-of-voice rules.

no commas / iOS app for personal notes

Sep – Oct 2026

Edited AI-generated interface text: rewrote 50+ English strings and translated 300+ strings into Russian. Developed the app's voice and a bilingual glossary in line with the overall concept.

AST Publishing House / internship

Jul – Sep 2025, Moscow

Publishing and editorial work. In a team, developed the concept of a 3-book series: structure, book contents, cover design principles. Wrote briefs for future authors and illustrators; presented the final concept. Proofread a book (400+ pages).

Manuscripts & archives

Prozhito project, internship: digitized and tagged handwritten diaries following unified formatting rules, 140 pages.

Pishu Tebe ("Write to You") project, volunteering: transcribed and digitized 120+ handwritten postcards, filled in the full set of metadata, and reviewed transcriptions by other volunteers.

Education

HSE University, Philology / BA program

2022 – 2026, Moscow, full-time

Thesis: "Representation of Bennington College in American Fiction."
3 years in a research seminar in English-language literature; extensive experience with English-language materials.

Completed a wide range of non-core disciplines (art, cultural studies, history).

Path to UX Editing / course

Sep 2026, Ryba platform, online

Topics studied: principles of interface text (clarity, tone of voice), errors, empty states and hints, working with a designer and a product team, interface audit, text testing.

Skills

- **Interface text:** buttons, labels, empty states, error messages, onboarding.
- **Tone & terminology:** working with a glossary, tone-of-voice rules.
- **Editing**: proofreading experience in publishing, editing AI-generated text.
- **Localization:** natural EN ↔ RU translation preserving tone and terminology, working with a bilingual glossary, game text localization EN → RU (test assignment).
- **Design:** Figma, design system, screen layouts, understanding of user scenarios.
- **Working with AI:** setting tasks, independent checking and editing of results.

Languages & Additional Tools

Russian — native. **English** — C1, German — B1, Czech — A2.

Basic knowledge of **HTML** and **CSS**; can read and edit code independently.

Extensive experience with AI tools (ChatGPT, Claude, Cursor, Kling AI, etc.) for both everyday and specialized tasks: large-scale data analysis, structuring and writing text of any kind, coding, etc. Work with different models and AI agents.
